Subject: Rural Transport Survey

To:

Sent to District Councillors, Parish Council clerks, community groups and others

Good morning,

Suffolk County Council are currently running a survey on rural transport. This will be helpful in terms of shaping future rural transport services. The Community Partnership Transport Task and Finish Group is looking at transport in our area including promoting existing services like Katch, Connecting Communities etc, trying to increase usage of these and identifying gaps to where these need to be raised to. But it feels like this could be quite helpful in terms of establishing a bit of a baseline as we can see a bit more about awareness of Connecting Communities for example and indeed, usage.

So, if you can promote and encourage people to respond, that would be great! We can then get a snapshot from the postcode (albeit the first 4 digits of the postcode) about the sense from this area. Link is here: Suffolk Rural Transport Survey 2024 <https://www.smartsurvey.co.uk/s/8B1YI2/> . Survey closes on 30th November.

Regards,

Sam
